

Some problems limit growth in Greater Victoria

The politicians and developers would like to see Greater Victoria grow.

But!

article continues below

We have 13 municipalities with 13 agendas.

We have a labour shortage in all sectors, due to a high cost of living, low wages and a lack of affordable housing.

We already have traffic issues, due to people living in one region and working in another region.

Our existing infrastructure needs to be repaired or replaced.

We already have water restrictions for part of the year.

We have a shortage of classrooms in our school system.

We have a shortage of doctors and will eventually need a new hospital in the West Shore.
